

Your Brand is One of a Kind

Custom Packaging

Many of our clients rely on a unique and custom design for product packaging to set themselves apart from their competition.

Vision Press continues to be a leader in the packaging industry as we offer one of the most diversified solutions to any client's packaging needs. We pride ourselves in providing direct paper source for the board stock or acid tray manufacturing for corrugated products utilized in many industries.

Some of the products we have developed packaging solutions for include:

- Medical Devices
- Bio-Medical Products
- Food Related Products
- Electronics & Toys
- Recreational Products

A Unique Fit for Our Capabilities

Creating and promoting your brand is essential to your continued growth. Vision Press works side by side with our clients with every step of the process, from creative development through production and delivering the finished product.

Vision Press has worked with many major brands and has provided high quality packaging solutions that has enabled them to successfully launch new products and services. Our packaging solutions include all components required and are managed all under one roof, from concept design to completion.

Our solutions include some specialized materials:

- Folding Retail Cartons
- Corrugated Cartons
- Thermoformed Trays
- Stand Up Displays
- Custom Integrated Labels
